

## MHPVA Member Wally Kiehler's Page

Wally Kiehler's first recumbent was a 1992 LWB [Linear](#) USS (Linear brochure photo shown)

His second 'bent was a 1995 [Lightning P-38](#) with [Zipper](#) fairing and a body sock, seen right sans sock.

His third bent was a 2000 [RANS Velocity 2](#).

His fourth bent was a 2002 [Bachetta Strada](#) with [Angletech Aerotrunk](#) and [Mueller Windwrap XT](#) fairing, seen right.

Here is the Strada all tricked out with [Mueller](#) body sock

It is clear that Wally gets anxious if he rides the same bike for more than a year or so. Here are a couple of pictures of one of his newest acquisitions, a Lightning F40 (taken late 2004)

Wally getting some help prepping his F40
